

"upliftment and empowerment through education and training"

## EFFECTIVE OUTCOME BASED TRAINING THAT INCREASES PRODUCTIVITY AND ADDS TO PROFITABILITY

Skills development training focuses on up- skilling and re-skilling individuals in a particular vocation/task/job or career path. It aims to ensure that individuals are competent in their area of expertise and ensures that any skills programmes or courses completed add to the efficiency of their job at hand. It involves outcomes based training, where learners actually "do" and practice what they are taught.

Prior to certificates being issued, learners need to prove their competence against a set of outcomes and associated assessment criteria by completing projects, written assessments or portfolios of evidence.

## WHY USE YONKE ENVIRONMENTAL SOLUTIONS?

Yonke Environmental Solutions is a private Training Provider committed to the success of its learners, stakeholders and the transport and warehousing sector as a whole. Yonke prides itself in offering dynamic training courses at the most cost effective prices, using professionally trained facilitators and full accredited assessors.

We are a fully accredited with the Transport Education and Training Authorities as well as an Authorised Training Body for the Department of Transport.

## CONVEYING HAZARDOUS GOODS BY ROAD Based on SAQA Unit Standard 123259 – NQF3

**Dangerous Goods Training as gazetted to ensure compliance of Section 8 of the Road Traffic Act 1996.**

The purpose of learning is to ensure safe loading, conveying and off-loading of dangerous goods according to legal and organisational requirements. Drivers will be skilled in conveying dangerous goods in accordance with legal, safety, manufacturer and other relevant requirements and handle incidents safely when they occur.

Any driver wishing apply for a PRDP (D) or renew their PRDP (D) needs receive a certificate of competence against this unit standard.

## OUTCOMES

By the end of the course, the learners will be to:

- Comply with relevant legal documentation requirements.
- Apply safety and standard operating procedures during loading and off-loading.
- Apply safety procedures in the event of an incident.
- Comply with the requirements of SANS 10231 in terms of behavior on route.
